

PROGRAM SALTA CLASSIC

DAY 01 - SALTA

Arrival at Salta airport and transfer to the hotel.

Visit the city of Salta.

The foundation of the city of Salta dates from 1582, made by a Spaniard from Peru. Its architecture is well preserved of colonial nature, which makes the city captivated by its vigorous contrast between its colonial buildings and modern architecture. It is the largest city in the north of the country, offering a variety of attractions to explore the surroundings or even practice adventure sports.

Salta is home to some architectural joyas, such as the Convent of San Bernardo, the Church of San Francisco and the Cabildo (former seat of the Spanish colonial authorities) which houses the Historical Museum of the North. From the top of Cerro San Bernardo, you can enjoy a panoramic view of the city, with its residential areas and also the monument to General Martín Miguel de Goemes. **(Cable car not included)**

In the vicinity of the center, we visit an interesting craft market, where handicrafts of all kinds converge with a unique variety. This building was once a Jesuit stay.

For all these reasons, it is certainly claimed that we are in one of the most dazzling cities in Argentina. Jump into the language in Aymara Sagta means "the most beautiful".

Return to the hotel.

Overnight at the hotel.

DAY 02: SALTA - VISIT OF CAFAYATE

Breakfast at the hotel.

Visit of Cafayate.

Departure for Cafayate. The road passes through an important area of agricultural and animal production, where small typical villages such as the Cerrillos stand out, also known as the carnival capital of Salteño; La Merced, City of Flowers, El Carril, Talapampa, Germany ... until we arrive at the "Shell of the Shells".

This ravine of particular beauty for its geological formations, represents the most important part of the road. From there, the landscape continues to change and therefore surprises. The hills will change tone and contrast. Oxides, sulphates and sediments will be present with the splendid landscapes of an impressive polychromy. We will make stops in the formations "The Devil's Throat", "The Amphitheatre", "Las Tres Cruces", "Los Castillos" and will distinguish many others.

The small town founded around 1826 stands out as a center of wine production. Its dry climate, characteristic of good sunshine, places Cayafate among the best production regions, where you will find the most elaborate wines from vineyards such as Torrontés, Malbec, Merlot, Cabernet and Tanat, among others. That's why we're going to visit a winery. In Cafayate it is also possible to visit its cathedral church and explore the beautiful square with neocolonial features, craft shops, art galleries, meringoon of crafts, etc.

In the afternoon, we returned to Salta, still crossing Route 68. Towards the end, after examining the ravine and taking breaks to take pictures, we will return to the Lerma Valley, through Germany. A technical stop is planned at Posta Las Cabras, a gift for passengers to taste goat cheeses and other gastronomic specialties of the region. Return to the city of Salta.

Overnight at the hotel.

DAY 04: SALTA – VISIT TO HUMAHUACA

Breakfast at the hotel

Visit Humahuaca.

Departure for Humahuaca. The trip starts in the city of Salta with a day trip to the north to enjoy beautiful scenery. Thanks to the access to Yala, we started the ascent and visited the famous Quebrada. Gradually, the vegetation will disappear to make way for the broken landscape, defined by its unique stratifications that fill the view with its colors and shapes.

In Purmamarca we stop for about 30 minutes, contemplating a walk through the village and its attractions. It is a small village of La Quebrada, with its famous "Cerro de los siete colores". You can discover a small chapel dedicated to Santa Rosa de Lima, in the adobe

colonial style and a small craft market. In the shady square, vendors offer wooden carvings, hand-woven carpets and all kinds of medicinal herbs.

Then we continue to Maimará and Tilcara, where passengers are taken to the famous Pucará. This ancient indigenous fortress is framed by beautiful polychrome mountains that, in addition to the historical explanation of the guide, will allow you to contemplate the thistles of the archaeological site. Then we will visit the Archaeological Museum of the village.

Around noon, the route continues to the city of Humahuaca, transposing the Tropic of Capricorn and many other geological formations that make the journey unique. We walk through the beautiful characteristic colonial streets, among which is the central square and, around it, the monument to independence, the cathedral and the town hall, among others. We took a break for lunch there (food not included in the tour).

For the return to Salta we have very interesting activities: visit the small chapel of Uquía, which shows a strong colonial heritage expressed in its ancient architecture of the sixteenth and seventeenth centuries. Precious works of colonial art are on display, as well as pieces from the old Cuzqueña school: colonial baroque, gilded altars or religious sculptures in carved wood from the seventeenth century.

Return to Salta.

Overnight at the hotel.

DAY 04 - SALTA

Breakfast at the hotel

Departure Salta airport.

END OF OUR SERVICES
